activities, and at the January Council, receive permission and opportunity to work on perhaps two million lifestreams.

The response of each one of those who have been chosen for the indescribable benefits, blessings and privileges which the Cosmic Law offers them under the New Dispensation cannot be emphasized too strongly, because the individual personal accomplishment of each lifestream will be a prime factor in the decisions of the Lords of Karma to give Us more freedom to continue Our endeavors for the balance of mankind in the year that is yet to come.

The calls for the purification of the inner bodies of each person who is aware of this particular assistance coming through the Holy Christ Self this year will help Us as We work, without cessation, in the establishment of the schools for the lower bodies which are the block between the perfect direction of the Presence and its receptivity to the outer intellectual self.

Each one of the two hundred thousand souls is required to spend at least one hour of each night in the Transylvanian Retreat where the Focus of Purification and Freedom is so powerful, and We know that the six months that lie ahead of Us yet will yield a far greater harvest of accomplishment because it started within this Purifying Activity established and maintained by My Beloved Son, Saint Germain.

Blessings and Love,

MAHA CHOHAN

Excerpts from the Address of the Maha Chohan to the 200,000 lifestreams chosen to be the forerunners of the Earth's redemption period. (Address given on the night of August 7, 1952)

One of the Activities and Qualities of the Holy God, from Whose Bosom we all came into being, is that of a Comforting Presence.

Do you know that the cry that arises from the Earth is for Comfort - from pain, disillusionment, loneliness and uncertainty?

The Presence of the Holy Spirit is God's answer to this heart call, and I, who presently wear the Name and carry the Title of Maha Chohan, am delegated to BE that Comforting Presence to ALL of Life everywhere.

Those who choose to represent Me in the world of men must begin to be a Comforting Presence in their own environment - their own personal sphere of influence.

Until each man has learned to fill his aura with that Peace, that Hope, that Healing Power, that Balance which brings Comfort to life, so that his physical presence becomes a welcome and light-bringing gift into the environment and atmosphere in which he moves, he has no right to carry My Words to life.

I would rather focus My Rays through a thatched-roof hut in the heart of the Himalayan Mountains, where no human being ever sets foot, than have a temple of gold and marble in the world of men, where there was persecution, unhappiness and distress. I would rather take the foot of a wounded beast from the cruel jaws of a steel trap set by the greed of unawakened man, or mend the broken wing of a sparrow, bringing gentle comfort to life, than speak from the housetops and cause life to tremble in My atmosphere.

The purpose of THE BRIDGE is to bring the Comfort of Life to the wounded sons of men - to their sore hearts and confused spirits; to enable them, through gentle guidance, to find the Comforter within the recesses of their own beings, requiring no mediator in form, and be able to say with the Master Jesus: "Come unto Me, all ye who labor and are heavy burdened, and I will give you rest!"

Those who are willing to learn the gentle art of selflessness - to 'lose their lives' that they might gain Life Eternal; to work, without adulation, from within the Light, may write their names on the Scroll at the Ceylon Retreat and enter into the instruction that will bring them to a point where My Ray, through them, may walk the Earth in gentle Love.

Every man has his own small orbit - his sphere of influence - into which are drawn, by karmic ties and circumstances, a certain amount of life energy. This life may be encased in human or elemental form, but its very presence within his personal atmosphere is the manifest sign that it

is the responsibility of the individual who professes a desire to represent the Holy Comforter to Life - to love that life free. Until such a man has brought and sustained comfort to the life which he contacts in his daily and hourly experience, he has not qualified to become a Radiating Center of Cosmic Comfort to the masses.

Some men have a larger sphere of influence than others, and therefore, more lifestreams are within the compass of their daily influence. If such men would know Me and My Service to Life, let them enter into the Radiance of the Holy Comforter and, connecting with My Presence, bring Peace and Order out of chaos; Harmony and Contentment out of dissatisfaction; Understanding and Wisdom out of ignorance; Health and Well-being out of sickness; Supply and Plenty out of lack. Then, and then only, may I walk freely through such a man, as the God of Heaven has ever walked through His Chosen Ones, bringing Comfort to all who share the exile on Earth and its present woes.

Every son of Earth who has stood before the Karmic Board and qualified to become a Son of Heaven was, before His Ascension, a Presence of Comfort to His fellowmen. The exceptions to this rule have been bound out to schoolrooms in the inner spheres where they have had to learn the control of their energy until such a radiation became their passport into the realm whose inhabitants are dedicated to bringing and sustaining Comfort to all who 'touch the hem of their garments'.

The Great Lord Buddha achieved His Buddhahood because of His burning desire to bring Comfort

and blessing to life. The Great Examplar, Jesus, was and is an example of a lifestream whose essence has been blended with the quality of the Holy Spirit in Its fullness.

Asking the pardon of Their Great Presence in this Assembly, may I ask you if you have any concept of the vibrations of the aura through which must pass those Healing Rays to make a blind man see - a seemingly lifeless form to rise from the dead and join his grieving companions? What, exactly, is conveyed through such a transmitter? COMFORT to the afflicted.

If you cannot practice becoming a Comforting Presence in the breaking of your daily bread, in the course of your everyday living, can you, in Good Reason's Name, become a Cosmic Comforter to some ten billion souls bound so long beyond their allotted time in the heavy karmic chains of miscreations, the very sight of which would turn a sane man mad?

What you are hourly is the measure of what you represent as an outpost of Ourselves. Ah, yes, in times of crisis, it is true that the Holy Christ Self, for the moment, sweeps aside the outer self and performs, on rare occasions, feats of great heroism and merit; but you who have been chosen to become the Holy Christ Self all the time are not measured by this spasmodic scale.

You, who stand before me, do so at the request of your own Christ Selves. Let Me remind you of something. Those beautiful Christ Selves have waited for so many countless centuries to fulfill the God Plan through your personal egos that it would not be within the dictates of My conscience

to remind you of the time, the energy, the love, and the thought entailed in sustaining you as personalized and individual beings. From among the ten billion souls who belong to this Earth chain, and who are dependent upon incarnation through the Earth today, you have been chosen to become 'the first fruits of them that slept'.

By your cooperation, and by the manifest activities of your outer selves, will the Karmic Lords determine how great a dispensation they will give in the coming January Council which is, now, not too far ahead.

You chose to work through the chain of the planets around the Sun to become co-Creators with the Father in His Kingdom; to learn the lessons of Cause and Effect through the generation and projection of energy. For countless aeons of time you have worked under the Chohan of one of the Seven Rays, and your lifestream's record is written in the Cosmic Library of the four Maha Chohans who have successively held this Office. It is, therefore, My obligation and responsibility to Life to thus address you, and to tell you that you must ascend on your particular Ray to Its apex, and become, not only Lord of that Ray, but ultimately Great Lord, which is the meaning of the Title that I carry (Maha meaning Great; Chohan meaning Lord). As a Great Lord, you must embody comfort to all Life. Let us see now if there are, among you, those who are willing to subjugate the personal ego so as to become such a Comforter to Life. The amount of life comforted is not so important as the motive, for when it is pure and earnest, life will increase the sphere of influence accordingly.

As the far greater majority of souls are receiving this address within the etheric body, I would like to emphasize that this talk is in no way to be taken as license to pamper the human appetites and demands of the flesh, but to remember that the Service is to God, for God, and in God's Name, with the inner eye ever turned toward the Source from whence all Comfort flows, until the aura is suffused with that Peaceful Presence. The heart must be kept 'stayed in Him' from whence the life of the universe did first proceed, and into which, one day, when you have qualified as such a Comfort to Life, you shall again return.

I give you the blessings of the Holy Spirit Whom I represent in relationship to the planet Earth at this time. May you come to understand His Gift to Life, and not only abide within Its Comfortable Presence, but become that Presence in His Name.

No. 11 August 19, 1952

****

The individualized consciousness of the life-stream which dwells in the Higher Octaves is ONE with the Nature and Purpose of God, and the thought and feeling centers of these Christ Selves are always actively engaged in creating and expanding God's Kingdom. The WILL OF GOD is the motivating power of these Beings, and the Divine Ideas from the Great First Cause flow through them continually without opposition. Thus, the Perfection of the Godhead is clothed by the thought, animated by the feeling, and externalized by the obedient will of these Intelligen Foci or Christ Expressions of the ONE God.

As the far greater majority of the Holy Chris Selves (sometimes called the Higher Mental Body) of the humanity of Earth dwell within the Fourth Sphere, and activate the Universal Substance of that Sphere by Their constant creative endeavor, you will see how tremendously charged this Fourth Sphere is with the Perfection and Beauty of God's Divine Plan.

The great activity of this year (1952) is centered in the forming of a BRIDGE which will connect the thought and feeling centers of the Holy Christ Selves with those of the outer egos who represent them in the world of form, and lower over the Bridge thus formed, the beauty and perfection of the Higher Realm. Here let Me remind each incarnated ego that his or her Christ Self has been actively engaged, for untold centuries, in creating and externalizing such beauty
